

THE UNITED STATES DISTRICT COURT
FOR THE EASTERN DISTRICT OF VIRGINIA
RICHMOND DIVISION
Case 3:17-cv-00601-MHL

701 East Broad Street
Richmond, VA 23219
February 25, 2018

To Court Clerk:

I am once again writing on behalf of my mother, known as Queen Tut. In a prior letter we provided Queen Tut's identity and birth certificate. There is currently a civil case pending with Queen Tut, Jason Goodman, & Trish Negron. The case number is listed above. My mother has recently been diagnosed with dementia and I am now overseeing her social media and other affairs.

People following Queen Tut's social media send her information that is related to current affairs that include documents or articles about Robert David Steele. Robert David Steele being the person who filed the law suit in your district. We are providing two documents that should be filed for this case. The court may not be aware that thousands of people know Robert David Steele from his presence on the internet and TV interviews.

According to attorney Steven Biss, Ms. Lutzke was served with a court notice at her residence 1221 University Ave. in Fort Collins, Co. We received a document from a social media follower, who tried to contact Susan Lutzke at that residence. Apparently, Ms. Lutzke has not lived at this unit since the year 2015. According to Attorney Biss, she was served at this residence in November 2017. This social media follower contacted the owner of the unit and he provided a statement and contact number documenting the fact that Ms. Lutzke did not reside at this address. This information confirms that Attorney Biss has provided false documentation to the court. That is aside from the fact that Ms. Lutzke is not Queen Tut. We are providing a copy of that document with this letter. We are

also providing a copy of an article written by Robert David Steele. Where he states that:

"Below is a partial listing of specific trolls for whom I have in hand copies of defamatory statements suitable for submission to a Court, for YouTube only. I have another list and copies of defamatory statements for Facebook. Every single one of these individuals is discoverable in true name via legal discovery, and can be held to account as a crowd-stalker and co-conspirator."

This list contains the names 247 names used by people who have commented under public videos on YouTube. This list was published on a global news site without their permission. Robert David Steele's letter reveals that he threatens litigious action to anyone on the internet who may comment under one of his public interviews. He not only threatened irrational legal action, he published their information to a global audience without their knowledge.

Documents to be filed with court:

1. Statement from owner of 1221 University Ave. #202 Fort Collins, Colorado
2. Robert David Steele's article: *How The Deep State Controls Social Media and Digitally Assassinates Critics* <https://ahtribune.com/culture-media/1992-deep-state-social-media.html>

Once again, I apologize for not providing contact information. My mother is concerned about being targeted and injured by associates of Robert David Steele.

Sincerely,

Mercia Francis

December 8, 2017

To Whom it may concern:

My name is Steve Bytnar and I am 50% owner of FOCO Properties LTD. FOCO Properties is the owner of the condominium located at 1221 University Ave, Fort Collins, CO. I write this letter to inform you that Susan Lutzke has not resided at the address of 1221 University Ave, Unit E202 in Fort Collins, CO since March of 2015. If there are any questions regarding the timing of Ms. Lutzke's departure from that address I would be happy to address them. I can be reached at 970-371-7006.

Regards,

A handwritten signature in black ink, appearing to read "Steve Bytnar", written in a cursive style.

Steve Bytnar

How The Deep State Controls Social Media and Digitally Assassinates Critics

#GoogleGestapo – Censorship & Crowd-Stalking Made Easy

“And ye shall know the truth, and the truth shall make you free.” (John 8:32)

This is a speculative account based on personal experience and broad reading. In no way is it a substitute for a proper legal discovery process – but it could be useful in guiding such a process.

The recent arbitrary deletion with no appeal by Twitter of two accounts – one belonging to my friend Alt-Right white male Roger Stone [1] and the other to an Alt-Left black female activist who goes by the name of “Charlie Peach” [2] and reminds me of my friend Cynthia McKinney, [3] should be the death rattle of #GoogleGestapo. If Roger Stone and “Charlie Peach” were to sue Twitter together, in combination with my own lawsuit against three apparatchiks and their many co-conspirators, [4] and the new potentially formidable case by Prager University against Google, YouTube, and DOES 1-25, [5] I believe these three cases and perhaps others might converge in a most constructive manner assuredly in the public interest. The above juxtaposition is important – the Deep State is seeking to censor and in some cases digitally assassinate both those on the right and those on the left who challenge official narratives. This is discrimination based on political affiliation or belief.

While I identify the Deep State as the ultimate antagonist, it is the Zionists who have refined the system that the Deep State now uses to control social media and digitally assassinate critics and those espousing conservative values or support for the US Constitution as well as opposition to the prevailing “Israel First” mantra at the federal, state, and local levels. [6] “Hate speech” and related filters are code for repressing those critical of the Zionist and Deep State narratives, known in the aggregate as “Alternative Media.” [7]

I have found it helpful to distinguish early on between a few very powerful extremist Zionists who serve a foreign agenda that calls for the complete subversion of the United States of America (USA) and other countries, and millions of loyal decent Jews world-wide, nine million of whom reside in the USA. My focus is on a limited number of extremists who are certain they are above all laws; they do not represent decent Jews – or the established religion of Judaism – as a whole. My focus is also only on social media control, not on other methods used by the Zionists to subvert entire countries. [8]

In combination with false flag [9] events that perpetuate a climate of fear and astronomic levels of spending on a militarized *domestic* total surveillance and control system in which police forces abandon community-based policing and go straight to treating the public as the enemy, with a complicit Mainstream Media (MSM), #GoogleGestapo has emerged as *the* social control mechanism of the 21st Century, not only blocking over 400 websites [10] (I suspect the number is much higher) but censoring millions and digitally assassinating tens of thousands of individuals, many of them in the USA. The intent of the Deep State has recently been made clear by one of its fronts, the Council on Foreign Relations (CFR): dissidents and those who question authority should be treated as “domestic terrorists.” [11]

I do not address the related issue of #GoogleGestapo as a global surveillance [12] enterprise violating all rights to anonymity, identity, privacy, and security – my focus here and now is on discrimination. [13]

It bears noting in passing that Fourth Amendment protections against search and seizure do not apply to third party cloud holdings – this is yet another sucking chest wound in the GooglePlex waiting for the law to catch up.

The Prager University team includes Alan Dershowitz, who is both a celebrated scholar and defense lawyer and an Israel Firster [14] – a mixed blessing when one is suing a Zionist system that is relied upon by the Deep State. Having this enormous but conflicted talent on the team reminds me of the Warren

Commission, where Allen Dulles, the mastermind of the John F. Kennedy (JFK) assassination, was put on the Commission by Lyndon Baines Johnson (LBJ), the man who signed JFK's death warrant, to ensure that the falsehoods being put forward by the government were adhered to. [15] The Plaintiffs may wish to consider adding someone like Judge Andrew Napolitano to their team, and be most wary of Dershowitz negotiating a

pro forma settlement behind the scenes that results in a limited victory that forestalls the much larger Title 7 challenge to the entire #GoogleGestapo system administered for the Deep State by the Zionists. I predict YouTube will quickly restore the videos in question and apologize, so as to stop this case, potentially the Title 7 [16] case of the century, from going to discovery, trial, and logical expansion.

Here is a simple example of a discovery question that the Prager U team could ask, given that they have over fifty videos that have been banned from YouTube:

Provide a list of all banned videos in the past five years, the specific reasons why each video was banned; and the identity of and contact information for each of the related individuals or organizations for each of the banned videos.

This matters because no one, anywhere, has been able to compile a list of all banned videos. The legal discovery process is the only means by which we can compel the revelation of this vital information while assuring that the resulting information is of evidentiary quality.

Properly done, a larger challenge would also document through a legal discovery process – and then hold accountable – organizations such as Kaspersky, *Rolling Stone*, *Slate*, *Mother Jones*, and others that have been lazy and allowed Zionist trolls to “game” their reporting systems and digitally assassinate individuals critical of Zionist Israel (or skeptical of the Deep State narrative) by submitting false reports of bullying, spamming, hating, and even – the latest – “X-Rated Content” such that entire web sites are blocked from being accessed. As Congress has recently determined, the social media endeavors – which should be but are not regulated as public utilities [17] – have been cutting corners on screening content, and been severely remiss in both technical and human quality control. [18] As most cases against the #GoogleGestapo monolith should show if legal discovery is pursued, there is both a failure to be serious in terms of properly screening content, and a double standard – those that agree with the Deep State – or serve the needs of the Deep State – are allowed to

threaten assassination, spew hateful language, and crowd-stalk at will. Those that do not agree with the Deep State are at the capricious mercy of an unregulated system that excels at censorship and crowd-stalking with impunity. [19]

#GoogleGestapo Overview

The Central Intelligence Agency (CIA) and In-Q-Tel, both early sponsors of Google and other social media innovations, clearly understood the value of these enterprises to create a desired “total surveillance” architecture. [20] It was the Zionists, however, who appear to have perfected a pervasive blend of people, organizations, and technologies to achieve persistent and pervasive censorship and crowd-stalking that is now in the service of the Deep State, both in the USA and around the world.

Below are the key elements of #GoogleGestapo based on my broad reading and direct personal experience. Pending proper legal discovery, I speculate that all levels are connected – this is a *system*.

- Deep State – banking families including Vatican, City of London, Wall Street [21]
- Zionist Government of Israel/Benjamin Netanyahu/Mossad [22]
- American Israel Public Affairs Committee (AIPAC), Anti-Defamation League (ADL) [23]
- Eric Schmidt, Arnon Milchan, George Soros, Media Matters and many more
- Complicit Internet services companies including Facebook, MeetUp, Twitter
- Paid sub-contractors that do live-streaming defamation on command
- Paid trolls -- Israeli reservists, ADL, Media Matters and others
- Volunteer trolls too stupid to know they are being lied to -- *sayonim*
- Dumb algorithms and lack of investment in ethics, human oversight, etc. by design
- “Shadow banning” (demonetization), subscription list neutralization, service cancellation [24]
- Lack of government regulation, not holding social media to anti-discrimination standards

Not included in my own experience with #GoogleGestapo, but highly pertinent to YouTube's lack of professionalism in both algorithms and human quality control and respect for customers given the ease with which false reports can destroy entire channels, is the entire matter of grand-fathered changed terms of service, moronic keyword and meta data restrictions, and malicious copyright strikes (to include the destruction of negative reviews of a product) and copyright extortion. [25]

My Personal Experience

Live-Streamed Defamation

On 13 June I did a live-streamed interview with George Webb, whom I respect very much. He was being "handled" at the time by one Jason Goodman with Patricia Negron as his partner. In the course of that interview, [26] I raised the prospect of Goodman himself being handled – perhaps unwittingly – by the Mossad. I speculate now that legal discovery will reveal both monthly payments to Goodman on the order of \$3,000 a month, and a pattern of email and cellular contacts suggestive that Goodman has been taking direction, first toward undermining George Webb (who was getting too close to the truth about the Awan brothers being patsies for a Mossad operation via Debbie Wasserman Schultz, spying on and blackmailing Members of Congress) and then #UNRIG, Earth Intelligence Network, and me. [27]

From that day forward, Goodman began a campaign of defamation, video slander, crowd-stalking libelous commentary, and tortuous interference that I have carefully documented. I will not litigate this case in public. Goodman and his many co-conspirators will have their day in court – but I note with interest that YouTube, a surrogate of Google, has not – despite my repeated complaints – deleted any of the many slanderous videos by Goodman, Negon, and "Queen Tut" now known to be Susan Lutzky. Based on my personal experience, I speculate that #GoogleGestapo – the full list of elements yet to be defined through legal discovery – is a co-conspirator with those who seek to manipulate public perception with aggressive character assassination and discrimination, the "Alt Right" and pro-Trumpers being top targets at this time. [28]

YouTube appears to be the most prominent element within which slander and libel occur daily – those with pro-Zionist opinions who parrot the government party line are protected – they slander and libel with impunity – while those who challenge Zionist atrocities and improprieties and the government party line find themselves de-monetized (“shadow-banned”) or digitally assassinated – in many cases an entire life’s work destroyed – with no recourse.

Below is a table of specific slanderous videos posted to YouTube (in red), and specific libelous crowd-stalking endeavors against third party videos (in black) in which I am interviewed, correlated with the collapse of our non-profit educational crowd-funding campaign at IndieGoGo (in green). [29]

Corrected and updated graphic 13 November 2017.

Troll Armies – from Israel to Media Matters to the Sayonim

In my speculative view based on my direct experience, the Zionists have perfected the use of human trolls and automated bots; one overtly active Mossad collaborator can inspire a crowd-stalking campaign that mobilizes over 400 distinctly identifiable trolls and bots (my best guess is one third human, two thirds artificial). While I have no direct knowledge, my understanding from secondary sources is that there is a clear division of labor between Israeli Army reservists based in Israel, the primary Zionist agents in the USA, not only the ADL but also its parent organization AIPAC, and specific sympathetic organizations such as Media Matters, whose “troll army” has been widely publicized.

Then there are the *sayonim*. These are volunteers who buy the Zionist “party line” and dedicate themselves to destroying anyone they see as an “enemy” of the Zionists. I have dealt personally with many such individuals who have emailed me, and it is with great sadness that I report my impression that these people, while well-intentioned, are out of touch with reality and often poorly educated.

Below is a partial listing of specific trolls for whom I have in hand copies of defamatory statements suitable for submission to a Court, for YouTube only. I have another list and copies of defamatory statements for Facebook. Every single one of these individuals is discoverable in true name via legal discovery, and can be held to account as a crowd-stalker and co-conspirator.

Please

NOTE

RDS'S

reputation

for plagiarizing

and being a

bully probably

resulted in his

problems

In my direct personal experience, these troll armies are very capable at persistent pervasive crowd-stalking. Every YouTube channel I have appeared on has been attacked (not just current, but past), to the point that most of my hosts have been forced to disable all comments, depriving the honest viewers of the interaction that I take pains to provide when not being crowd-stalked. Many hosts have not invited me to return, perhaps influenced by the demonetization ("shadow-banning") of any interview with me rather than the substance of my work that led to my being recommended for the Nobel Peace Prize in January 2017. [30]

These crowd-stalkers have also, on occasion, succeeded in getting videos deleted by marshalling multiple reports of "bullying" which is patently absurd in my case, but effective when YouTube is lazy (or complicit). Here is one case of a perfectly reasonable interview deleted by YouTube – there are others.

Steele, Robert, with Kenneth Ameduri, "Another False Flag? What Evidence Shows Us About The Las Vegas Shooting (<https://youtu.be/5-4LPXRT1RY>)," *Crush the Street* (Audio, 30:57), October 17, 2017.
